VENTURE TSX TICKER: ADK

DIAGNOS announces the signature of a letter of intention with Reno Gold Corp Inc. for a property acquisition in Gaspésie

Brossard, Quebec, Canada – February 4, 2008 - DIAGNOS inc. ("DIAGNOS" or the "Corporation") (VENTURE TSX: ADK), a leader in the use of artificial intelligence ("AI") and advanced knowledge extraction techniques, is pleased to announce the signature of a letter of intention with Reno Gold Corp Inc. for the acquisition of the Dinaloma property in Gaspésie.

"We are excited to make this property acquisition. The team at DIAGNOS is highly regarded in the mining industry. We think that the analysis they have done on the property gives us good reason to expect above average results once we begin our exploration effort on Dinaloma." said the President and CEO of Reno Gold Corp Inc., Paul Diana CFA, MBA. "This property is the first of a string of acquisitions in our quest to build a superior portfolio of mining claims. We expect to continue to focus our acquisitions in Nevada and Quebec. It is our expectation to close on the LOI in a timely manner."

About DIAGNOS

DIAGNOS, a multidisciplinary corporation, can count on a 20-people team among which seven professionals in geophysics and geology; artificial intelligence specialists, mathematicians, imagery and remote sensing. This team is helped by a dynamic administration and marketing and sales force to help serve its mining sector clientele at its very best. In addition to the data mining and the predictions of the best drilling targets, the Natural Resources Business Unit acquires and sells properties and offers project management services. This horizontal integration makes DIAGNOS, the leader in its sector of industry.

For further information, please visit our Website at www.diagnos.ca. The Corporation's objective is to develop a royalty stream by significantly enhancing and participating in the exploration success rate of mining and oil and gas companies.
