VENTURE TSX TICKER: ADK

DIAGNOS announces proposed financing of up to \$1,500,000

Brossard, Quebec, Canada – September 16, 2005 - DIAGNOS inc. ("DIAGNOS" or the "Company") (VENTURE TSX: ADK), a leader in knowledge extraction and artificial intelligence, announced today a proposed private placement of up to 6,000,000 units ("Units"), issued at \$0.25 per Unit, for gross proceeds of up to \$1,500,000.

Each Unit would be comprised of one Common Share and one-half of a Common Share purchase warrant (each full warrant, a "Warrant"). Each Warrant would entitle its holder to acquire one Common Share at a price of \$0.35 at any time during the 24 months following the initial closing date. The securities to be issued are subject to a 4-month hold period and other requirements set by the TSX Venture Exchange.

Based on currently available information, DIAGNOS believes that none of the subscribers are insiders of the Corporation. This proposed private placement is subject to receipt of all required regulatory approvals, as well as the negotiation and execution of formal documentation.

About DIAGNOS

DIAGNOS inc. develops and markets data mining software. The Company designed, developed and markets MCubiX, a data mining software suite capable of extracting knowledge from historical data - in the form of images, text or traditional databases - and making predictions that improve business processes and decision making ability. CARDS (*Computer Aided Resource Detection Software*) can be applied to several sectors of prospecting, such as diamond, gold, zinc, copper and the oil and gas, and each one of these resources require a distinct methodology endorsed by the application. For further information, please visit our Website at www.diagnos.ca.

The Company's objective is to develop a royalty stream by significantly increasing the exploration success rate of mining and oil and gas companies around the world.
