DIAGNOS – 2009 First quarter financial results

Brossard, Quebec, Canada – September 2, 2008 - DIAGNOS inc. (“DIAGNOS” or “the Corporation”) (TSX VENTURE: ADK), a leader in the use of artificial intelligence (“AI”) and advanced knowledge extraction techniques, announced today that it has published and filed with the regulatory authorities, its 2009 first quarterly report for the three month period ended June 30, 2008.

Revenue amounted to C\$510,229, an increase of 150% over the amount of C\$203,843 for the first quarter of 2008. Half of the revenue amount of C\$510,229 for the current quarter was derived from data mining services to the mineral exploration industry and the other half was derived from exploration project management services.

During the quarter DIAGNOS signed two data mining service contracts for a total value of C\$230,000. As at June 30, 2008, the revenue backlog amounted to C\$868,464 and is comprised of services to be invoiced related to signed agreements in the amount of C\$370,000 and deferred revenues in the amount of C\$498,464.

DIAGNOS ended the first quarter of fiscal year 2009 with a net loss of C\$397,272 (-C\$0.01 per share) compared to a net loss of C\$239,703 (-C\$0.01 per share) for the first quarter of fiscal year 2008 ended June 30, 2007.

As at June 30, 2008, DIAGNOS has a portfolio of 21 active net smelter return royalty agreements with some of its clients, unchanged from March 31, 2008.

DIAGNOS can count on a multidisciplinary team that includes professionals in geophysics, geology, artificial intelligence, mathematics, information technology, as well as remote sensing and image interpretation.

The Corporation’s objective is to develop a royalty stream by significantly enhancing and participating in the exploration success rate of mining and oil and gas companies. For further information, please visit our Website at www.diagnos.com or the SEDAR web site at www.sedar.com.
