DIAGNOS AND COMPUTER ASSOCIATES SIGNS AGREEMENT.

Montreal, Canada – June 2, 2003 – DIAGNOS Inc. ("**DIAGNOS**" or "**Company**") Diagnos, Inc. announces that it has signed a reseller agreement with Computer Associates International to resell their acclaim CleverPath Predictive Analysis Server. Diagnos is providing its MCubiX engine in support of the total solution sell to their customers.

The President and Chief Operating Officer, Christian Dufour, indicated that the agreement contain a co-marketing arrangement by which Computer Associates will receive compensation on every MCubiX license sold through Computer Associates. "Diagnos is glad to do business with one of the top USA software corporations" said Christian Dufour. This agreement represents for Diagnos an endorsement in the data-mining field and will open many opportunities in the future.

DIAGNOS is a Canadian corporation that develops and markets a knowledge extraction platform that allows automatic and intelligent analysis of images, numerical databases, web documents and text. DIAGNOS is the only known developer of multimedia mining technology. This segment of the information technology sector is currently experiencing growth. DIAGNOS is able to provide these systems now and is committed to bringing new products to market that benefit this growing and evolving knowledge management market.

The TSX venture exchange does not accept responsibility for the adequacy or accuracy of this release.
