### **DIAGNOS announces changes to the Board of Directors and grant of options**

Brossard, Quebec, Canada – March 10, 2006 - DIAGNOS inc. ("DIAGNOS" or the "Company") (VENTURE TSX: ADK), a leader in knowledge extraction and artificial intelligence, is pleased to announce the appointment of Ms Livia Masnagheti to the position of Director.

Ms Masnagheti is a graduate of McGill University holding a degree in Commerce and is a member of the Quebec Order of Chartered Accountants and the Canadian Institute of Chartered Accountants. She is presently a consultant with ePossible Solutions Inc. and has international experience in Finance and Mergers and Acquisitions. Until 2000, Ms Masnagheti was a partner with Raymond Chabot Grant Thornton, a major accounting firm.

Ms Masnagheti's appointment follows upon the resignation Mr W. Brian Edwards, as Chairman and director who has stepped down due to increasing commitments unrelated to DIAGNOS. Mr Edwards was instrumental in introducing Ms Masnagheti to the Company and DIAGNOS wishes to express its appreciation for his significant contribution to the Company's development.

DIAGNOS also reports that on February 21, 2006, subject to regulatory approvals, it has granted 525,000 options to its Directors. The options have an exercise price of \$0.23 and a five-year term.

#### About DIAGNOS

DIAGNOS inc. develops and markets data mining software. The Company designed, developed and markets MCubiX, a data mining software suite capable of extracting knowledge from historical data - in the form of images, text or traditional databases - and making predictions that improve business processes and decision making ability. CARDS (*Computer Aided Resource Detection Software*) can be applied to several sectors of prospecting, such as diamond, gold, zinc, copper and oil and gas, and each one of these resources require a distinct methodology endorsed by the application. For further information, please visit our Website at [www.diagnos.ca](http://www.diagnos.ca).

The Company's objective is to develop a royalty stream by significantly enhancing and participating in the exploration success rate of mining and oil and gas companies around the world.
