DIAGNOS announces its annual results for fiscal year 2006

Brossard, Quebec, Canada – July 17, 2006 - DIAGNOS inc. ("DIAGNOS" or the "Corporation") (VENTURE TSX: ADK), a leader in knowledge extraction and artificial intelligence, announced today its financial results of fiscal year 2006.

During the fiscal year ended March 31, 2006, the Corporation's revenue grew by 539%, registering revenue of \$709,187 compared with revenue of \$111,746 for the fiscal year 2005.

During the fourth quarter, revenue grew to \$266,019 compared to (\$44,497) for the same fiscal period last year. The Company's net loss was \$62,906 compared to \$382,341 for the same fiscal year period last year.

Over 80% of the Company's revenue was derived from CARDS (Computer Aided Resource Detection Software) services to the mining and oil & gas markets. Furthermore, the Company has increased its customer base from 5 to 19 customers during the fiscal year 2006.

DIAGNOS acquired 18 mining claims located in the center of the mining region in Abitibi, Quebec. These claims were acquired for future joint venture agreement with exploration companies.

"Using DIAGNOS' Artificial Intelligence (AI) methodology our customers can better target high value zones for drilling purposes" declared Mr André Larente, President of DIAGNOS.

About DIAGNOS

DIAGNOS inc. develops and markets data mining software. The Company designed and developed MCubiX, a data mining software suite capable of extracting knowledge from historical data - in the form of images, text or traditional databases - and making predictions that improve business processes and decision making ability. CARDS (*Computer Aided Resource Detection Software*) can be applied to several sectors of prospecting, such as diamond, gold, zinc, copper and the oil and gas, and each one of these resources require a distinct methodology endorsed by the application. For further information, please visit our Website at www.diagnos.ca.

The Company's objective is to develop a royalty stream by significantly enhancing and participating in the exploration success rate of mining and oil and gas companies.
