## Nemaska Exploration will use CARDS on its Lac Levac and Lac Arques projects

Brossard, Québec, Canada – January 4, 2011 - DIAGNOS inc. (“DIAGNOS” or “the Corporation”) (TSX Venture: ADK), a leader in the use of artificial intelligence and advanced knowledge-extraction techniques, announced today that it has signed an agreement with Nemaska Exploration (“NEMASKA”) (TSX Venture: NMX), to analyze data covering the area of its Lac Levac and Lac Arques projects located in the James Bay region.

“To maximize our exploration efforts on our properties, covering more than 85 km on the Lac des Montagnes green belt polymetallic formation, we have decided to supplement traditional exploration methods with advanced tools available, including CARDS (Computer Aided Resource Detection Software) technology from DIAGNOS. The latest CARDS results have encouraged us to try out this new technology. In the next few months, we will be starting exploration work on the best exploration areas targeted by CARDS and our team of geologists,” said Guy Bourassa, president of Nemaska Exploration.

DIAGNOS will be helping NEMASKA find targets using CARDS (Computer Aided Resource Detection Software) technology, which can identify sites with the same signature as known mines and deposits.”

### About NEMASKA

Nemaska Exploration Inc. is a mineral exploration company involved in the James Bay region of Quebec. Its main assets are the Whabouchi (lithium, beryllium deposit), Lac Levac (Nisk-1 nickel and copper deposit and extensions), Lac Arques (Lac Bourier and Complexe Rupert sector) and Lac des Montagnes (Lac Valiquette and Duval showings) properties, all 100% owned. These properties can be accessed year round by either the Route du Nord from Chibougamau (280 km) or the Route de la Baie James from Matagami (380 km).

### About DIAGNOS

Founded in 1998, DIAGNOS is a publicly traded Canadian corporation with a mission to commercialize technologies combining contextual imaging and traditional data mining thereby improving decision making processes. DIAGNOS offers products, services, and solutions to clients in a variety of fields including natural resources, healthcare, and entertainment.
