## **DIAGNOS Announces Licensing Deal with Clinique Hamouche in Algeria**

Brossard, Quebec, Canada – April 14, 2014 - DIAGNOS Inc. (“DIAGNOS” or “the Corporation”) (TSX Venture: ADK), leader in healthcare technical services including screening, software and algorithm development, data analysis, and image processing, announces today a deal with Clinique Hamouche in Algeria.

Clinique Hamouche provides vision correction, eye surgery, plastic surgery, and various other related services and offers the latest laser technologies for the ophthalmology and aesthetic services it provides. DIAGNOS will be providing its proprietary telemedicine software, CARA, and retina image interpretation to help the clinic in adding an additional service for its patients, retina screening. This preliminary contract is valid for one year with possibility for renewal and expansion.

“Clinique Hamouche offers a multitude of services related to ophthalmology and already owns all of the equipment required for retina screening. Recognizing the utility of CARA and the retinal analysis services DIAGNOS provides, the clinic has decided to add retina screening to its list of services through the use of DIAGNOS’ services. DIAGNOS will integrate CARA with the clinic’s existing infrastructure, providing a seamless and effortless transition to offering retina screening to their patients,” said André Larente, DIAGNOS’ President.

### About DIAGNOS
