DIAGNOS Announces Short Term Financing

Brossard, Quebec, Canada – June 17th, 2019 - Diagnos Inc. (“DIAGNOS” or “the Corporation”) (TSX Venture: ADK) (OTCQB:DGNOF) a leader in early detection of critical health issues through the use of its FLA/RE platform based on Artificial Intelligence (AI), announces a financing of \$250,000 in the form of short term debt.

DIAGNOS and three arm’s length persons have entered into three unsecured and non-convertible loan agreements (the “Loans”), respectively for \$125,000, \$75,000 and \$50,000. The Corporation shall repay the principal of the Loans and any accrued interest, at the annual rate of 6%, on, or before, December 17, 2019. As a bonus to the Loans, the Corporation is granting the Lenders an aggregate number of 250,000 non-transferable share purchase warrants (each a “Warrant”) enabling its holder to purchase one common share of the Corporation per Warrant, at a price of \$0.35 per share, for a period of twelve months ending June 17, 2020 (each, a “Loan Bonus”).

The Loan proceeds will be used to fund the operating expenses of the Corporation.

The Warrants and underlying common shares are subject to a four-month hold period from the issuance date of the Warrants. The Loan Bonuses remain subject to the final approval of the TSX Venture Exchange. All monies quoted in this press release were stated and paid in lawful money of Canada, unless otherwise specified.

DIAGNOS is also announcing that its stock symbol used on the OTCQB market has been changed from DGNOD to DGNOF.

About DIAGNOS

DIAGNOS is a publicly-traded Canadian corporation with a mission of early detection of critical health issues through the use of its Artificial Intelligence (“AI”) tool CARA (Computer Assisted Retina Analysis). CARA is a tele-ophthalmology platform that integrates with existing equipment (hardware and software) and processes at the point of care. CARA’s Artificial Intelligence image enhancement algorithms make standard retinal images sharper, clearer and easier to read. CARA is accessible securely over the internet, and is compatible with all recognized image formats and brands of fundus cameras, and is EMR compatible. CARA is a cost-effective tool for screening large numbers of patients in real-time. CARA complies with local regulations, is FDA cleared for commercialization in the United States of America, is Health Canada licensed for commercialization in Canada and is CE marking compliant in Europe.
