## DIAGNOS Announces Closing of a Private Placement

Brossard, Quebec, Canada – September 16<sup>th</sup>, 2019 – DIAGNOS Inc. (“DIAGNOS”, the “Corporation” or the “Issuer”) (TSX Venture: ADK) (OTCQB: DGNOF), a leader in early detection of critical health issues through the use of Artificial Intelligence (AI), announces the closing of a private placement (“Private placement”) of 2,750,000 units (each a “Unit”) issued at \$0.20 per Unit, for gross proceeds of \$550,000, which represents \$50,000 more than what was previously announced on September 13, 2019. Each Unit consists of;

- (i) one common share (“Share”), and
- (ii) one stock warrant (“Warrant”) entitling the holder to purchase one Share per Warrant at a price of \$0.25 per Share, for a period of 18 months ending March 16, 2021.

The proceeds will mainly be used to fund sales and marketing as well as administrative expenses.

Shares issued as part of the Private placement as well as the underlying Shares to be issued upon exercise of the Warrants are subject to a statutory four-month hold period ending January 16, 2020.

The Private placement remains subject to the final acceptance by the TSX Venture Exchange and to the execution of formal documentation.

All monies quoted in this press release shall be stated and paid in lawful money of Canada.

### About DIAGNOS

DIAGNOS is a publicly-traded Canadian corporation with a mission of early detection of critical health issues through the use of its Artificial Intelligence (“AI”) tool CARA (Computer Assisted Retina Analysis). CARA is a tele-ophthalmology platform that integrates with existing equipment (hardware and software) and processes at the point of care. CARA’s Artificial Intelligence image enhancement algorithms make standard retinal images sharper, clearer and easier to read. CARA is accessible securely over the internet, and is compatible with all recognized image formats and brands of fundus cameras, and is EMR compatible. CARA is a cost-effective tool for screening large numbers of patients in real-time and has been cleared for commercialization by several regulatory authorities such as Health Canada, the U.S. Food and Drug Administration and the European Union.
