REGISTER HERE!

Join us for our last special PBA à Noon of 2020 on Tuesday, December 22 for a conversation with André Laurent, President and CEO of Diagnos.

DIAGNOS (TSX.V- ADK) is a leader in artificial intelligence and healthcare technical services including algorithm development, data analysis, and image processing ever since 2001. In the last six months Diagnos has announced the reopening of screening services, signed several lucrative contracts across the globe and is well funded to move forward. With the recent activity in the share price, Diagnos continues to grow and is still positioned for phenomenal growth.
