Subject: RE: InvestorIntel Interview with Andre Larente of Diagnos Inc. (TSXV: ADK | OTCQB: DGNOF)

Good afternoon Andre and thank you for your patience. I literally just hit 'publish' on the YouTube posting, and tweeted out the following:

I just finished publishing this extraordinary interview with @DiagnosInc's Andre Larente on the benefits of using #AI for the early detection of #criticalhealth issues
<https://youtu.be/DjjkYZDWGSE> via @YouTube #diabetes #cardiovascular \$ADK.V \$DGNOF

And the InvestorIntel.com posting is also live. Keep in mind that the InvestorIntel.com posting is what secures the Google News feeds. Another update coming within the hour.

Kind regards,
Tracy Weslosky
